I alway, found hr. McCorteney must trust worthy, diligent and capable of fulfilling the duti 3 of his pasti n.

I do know that at various times ..r. Rusself She herd and wr. Gordon Goodnow sought to induce me to give unsatisfactory ratings to kr. 1 coar teney and to other war veterans.

These and other improprieties of lr. she mari and tr. Goodnow in the handling of efficiency ratings are fully detailed in documents filed with the personnel office, Thief of staff, war Department, and the Ill, by me.

Ladd, in which it was suggested that the information regarding discrimination against veterans in the FBIS submitted by be studied This has been done, and it does not appear that any action is necessary by the Selective Service Civil Section. The matter constitutes an administrative problem within CIG, to whose attention the matter has already been brought. It also concerns the Veterans Preference Act, which would be of interest to the Civil Service Commission. In this latter connection, it is noted that the information has been brought to the attention of Mr. Lawrence Meloy of the Civil Service Commission. Please be advised that a Mr. WILLIAM HUNT called at this office on 10-9-47, exhibited Treasury Department credentials and stated he was a Special Agent representing the Coordinator's Office of the Treasury Department. Mr. HUNT requested information from SA ENOS SANDBERG concerning and talked with Special Agent RALPH H. JONES concerning Both Agent SANDBERG and Agent JONES stated to HUNT that they knew b3 but any recommendations and information concerning former or present Bureau employees would have to be obtained by his department direct from the Bureau in Washington. It was ascertained from Mr. HUNT that had listed SA's SANDBERG and JONES as references in applying for highly confidential Government employment. Mr. HUNT stated to SA JONES that he was not advised for what position in the Government the applicants were being investigated, but believed they would receive a salary grade of CAF 14 or 15. DEPERRED DECORD Mr. HUNT in casual conversation advised he graduated from George Washington University, Washington, D. C., in 1936 with an LL.B. degree; that during the last war he was a Counter Intelligence Corps Agent in Marseilles, France, where he had numerous narrow escapes in attempting to obtain information for the United States Army. He is marriegrand resides at: San Franciscok California, where his headquarters office is located. His territory comprises the western United States, and his immediate superior is a Mr. GARDNER located at San Francisco. His organization also has a territorial office at Denver, Colorado. TANDARD FORM NO. 64 Office Memorandum UNITED STATES GOVERNMENT. TO DATE: October 23. 19h7 Mr. E. A. Tamm FROM Mr. A. Rosen SUBJECT: Reference is made to my memorandum of October 22, 1947, dealing with the dismissal of several employees by the Central Intelligence Agency on which the Director noted, "What I would like to know is why the burden for this has publicly been placed on FRT." It is to be noted that some of the newspaper comments concerning this situation indicate that the dismissals came as the result of investigations conducted by the FRI. a story by a writer named Young in the Washington Evening Star of October This article did not quote any official of the Central Intelligence Agency. However, subsequent articles have quoted Admiral Hillenkoetter. In view of the quotes attributed to Admiral Hillenkoetter 四 极 孤 - 23 nic -Bl 10A (P In this connection. material received from RECORDED # 368692 ALL INFORMATION CONTAINED
HEREIN IS UNCLASSIBLED

The reason why the Bureau is being publicly brought into this matter appears to be twofold; first, the insistence on the part of such newspaper writers as Jerry Klutz and John Cramer that these dismissals are loyalty dismissals and of course the Bureau, because of its prominent place in the loyalty program, is held responsible for any actions taken in connection therewith and, secondly, the fact that the Bureau has been conducting applicant investigations for the Central Intelligence Agency and the public, the press, Governmental officials, and employees of CIA, including those suspended know of these investigations. As you remarked in your memorandum of September 16, 1946, before we commenced these investigations, "The principal disadvantage to the Bureau's accepting this work is the fact that the Bureau would become wedded to CIG...."

It appears that we cannot conduct over 2,000 investigations for an organization resulting in a dismissal of some of that organization's employees without being mentioned in connection with the furor which was bound to arise over the dismissals.

ALL INFORMATION CONTAINED CONTAINED

DATE: October 23, 1947

DATE 10-13-89 BY

Your attention is directed to my letter dated September 19, 1947, captioned "GREGORY, ESPIONACE - R", and to my letter dated October 21, 1947, captioned as above, which letters related to information received by this office concerning certain employees of CIG who were being released from their positions for security reasons.

I wish to advise that additional information has been received through relating to this matter. The informant learned that on October 21, 1947, ALFRED BERNSTEIN, Director of Negotiations for the UPWA, advised a representative of the United Press that he, BERNSTEIN, was quoted accurately in the story which appeared in the "Washington Evening Star" on that date, and that the United Press could requote the statements made by him in that article. BERNSTEIN stated that all the United Public Workers wanted in this regard was to know the exact charges against the employee, to assure the right of the employee to be represented by counsel of his own choosing, and the right of the employee to face his accusers.

The informant learned that on October 21, 1947, BERNSTEIN was contacted by representatives of the Associated Press, United Press, International News Service, JENE CLARK of the Washington "Times Herald", and by FRANK HOLEMAN of the New York "Daily News". In addition to those contacts, it was learned that LAWRENCE KAMMET was contacted by JEAN ALLEN of the American Broadcasting Company, at which time she asked him if the United Public Workers' foreign policy was the same at the present time as it was at the convention of April, 1946. KAMMET told her that the UPWA was part of the CIO and that their policy has now been superceded by the policy determined at the recent CIO Convention in Boston.

It was learned that on October 22, 1947, DAN SCHWARTZ, Regional Director of the UPWA, contacted AL BERNSTEIN to ask him how he had made out in his conference with Admiral HILLENKOETTER. BERNSTEIN stated that the Admiral had given him a letter indicating that the CIO employees had not been released because of their union affiliation. BERNSTEIN also told SCHWARTZ the Admiral had told him that the employees were not fired UEbi 32 10 11

for disloyalty. He stated that the Admiral denied the story written by JOHN CRAMER in the Washington "Daily News", which stated in effect that the employees had been dismissed because there was a slow down in that division during the Conference of Foreign Ministers in Paris. BERNSTEIN was of the opinion that JERRY KLUTZ and JOHN CRAMER were "smearing" the story because they had been scooped by JOE YOUNG. BERNSTEIN also mentioned that he was taking the two girls, JEANNETTE FEIGENBAUN and DOROTHY MUNROE, over to see ISADORE STONE of the "P.M.", and indicated that STONE was going to start a program on civil liberties regarding these dismissals.

On the same date BERNSTEIN contacted Miss FEIGENBAUN and she advised him that she had received a letter from CIG advising her that she was to have her hearing on the case on October 23rd and requesting her presence at the hearing. BERNSTEIN instructed her not to attend the hearing and asked if she could be down to his office at 2:00 P.M. on October 23 for the purpose of going over to see STONE at "P.M." BERNSTEIN was of the opinion that she and MUNROE might be able to get their jobs back since there was so much pressure being brought on the case.

On the same date LAWRENCE KAMMET contacted JOSEPH YOUNG of the Washington Evening Star to tell him that he had "something hot" for him. YOUNG was unable to go into the union offices to see KAMMET, because as he stated, it was his day off and it was against Guild rules for him to come in. However, arrangements were made for YOUNG to visit the union offices on October 23rd at which time the two girls would be present and YOUNG would be able to get the first-hand story.

These are the most recent developments in this matter and you will be kept advised of any developments as they arise.

CENTRAL INTELLIGENCE AGENCY

November 13, 1947 DATE:

Reference is made to the memorandum which Mr. Tamm submitted to the Director on November 6, wherein he recommended that a representative of the Bureau talk with the individuals in CIA in order to acquaint, them with the material that the Bureau is interested in which comes to the attention of CIA. Mr. Tamm observed that it would be to our advantage to have someone explain to the actual people reading the incoming material the variety of the Bureau's interests therein. The Director approved of Mr. Tamm's recommendation and, accordingly, I talked to this group of some fifteen people on the afternoon of November 12, 1947. I talked to the group for approximately one and one half hours and my discussion of necessity was general in nature. Briefly, I advised the group of the general makeup of the Bureau from the standpoint of divisions at the Seat of Government and offices in the Field Division territories. I then referred specifically to our security and intelligence responsibilities, observing that they all relate to the primary responsibility placed upon the FBI for maintenance of the internal security of the country. Next I advised them of our interests from the standpoint of statutes, referring specifically to such statutes as the McCormick Act, Voorhis Act, Foreign Agents Registration Act, Espionage and Sabotage Statutes, et cetera. I discussed with them in a general way our investigations of both an organizational and individual character and I think I succeeded in getting across the point that the FBI is interested in receiving any material from CIA of either an intelligence or purely statutory character which in any way relates to our responsibilities of a security nature either under given Acts of Congress or under Presidential Directives. I indicated, for example, that the Bureau is interested in receiving advice and any background information available on the travel to the United States of persons reported to be suspect in character, be they diplomatic, quasi-diplomatic, or nondiplomatic -- aliens or citizens -- registered or unregistered agents -couriers, et cetera. I indicated also that the Bureau was interested in receiving any information of an organizational or intelligence type on any groups in any foreign countries with counterparts or related angles of interest in this country. As exemples, I cited the Trotskyite movement, the Spanish Phalange, the Communist movement, and the ultra nationalist movements in Palestine. In citing these examples which extend from the extreme left to the extreme right, I specifically emphasized the fact that the Bureau is interested in these movements in foreign countries or individuals identified with these

Memorandum to Mr. Ladd

movements in foreign countries when there is a counterpart movement in the United States or when there is some other angle of interest which pertains to the United States and our attendant responsibilities relating to the maintenance of the internal security.

A number of questions were put to me by various respresentatives of the group, all of which were of a general nature relating to our security and intelligence responsibilities. The questions were answered to the apparent satisfaction of those in attendance.

#### OBSERVATION:

These individuals in the main impressed me as having a sincere interest in ascertaining the type of information the Bureau is desirous of receiving and, particularly since they are on a rather low echelon at CIA, I think as a consequence of the discussion had with them we may look forward to the receipt of more information from CIA in the future than has been received in the past, unless of course the representatives of a higher echelon at CIA intervene.

No action is necessary:

Office Memorandum . United States GOVERNMENT :THE DIRECTOR TO DATE: 11-6-47 FROM :Edw. A. Tami SUBJECT: The attached request from the Central Intelligence Authority is for a Bureau representative to explain to some fifteen people reviewing incoming material at CIA just what the Bureau is interested in. We have on a rather formal basis advised the CIA of the nature of the Bureau's jurisdiction by letter but it would be to our advantage to have someone explain to the actual people reading the incoming material the variety of the Bureau's interests. These people are on a rather low echelon being reading and routing clerks and if a favorable presentation was made tothem we would probably get more material of interest and value to us than we are at the present time. I believe, consequently, it would be entirely proper for Mr. Fletcher or Mr. Coyne to spend an hour or so talking to these people about Bureau jurisdiction, and the matters in which it is interested. Mr. Pennington...

On September 25, 1946, an arrangement was effected whereby the Mr. Quinn Tamas Federal Bureau of Investigation agreed to accept on a reimbursable basis a volume of applicant investigations for the Central Intelligence Agency. In wise Gandy view of the President's Loyalty Program, the Atomic Energy Act and other matters, which added tremendous burdens to this Bureau, it was necessary to discontinue the arrangement with the Central Intelligence Agency, and Rear Admiral Roscoe H. Hillenkoetter, Director, Central Intelligence Agency, was so advised on September 30, 1947, by me.

In my letter of September 30, 1947, it was indicated that the program would be discontinued on October 15, 1947. Thereafter, I received a communication dated October 3, 1947, from the Admiral, in which he urgently appealed for an extension of the ending date, and I have, therefore, advised him today that the program will be discontinued on November 15, 1947. The Admiral also advised me that he was appealing to the National Security Council to consider recommendations, which he has submitted for the purpose of implementing his program, and he recommends that his Agency be authorized to establish a domestic investigative organization to investigate Central Intelligence Agency employees and applicants. He also suggests that the President instruct the Federal Bureau of Investigation to make personnel investigations for the Central Intelligence Agency during the next six months, which he estimates will be required to set up an investigative staff.

This is being called to your attention inasmuch as the matter may be referred to you for advice. Every consideration has been given the request of the Central Intelligence Agency and it is absolutely necessary, in view of the urgency of our responsibilities as indicated heretofore, to immediately discontinue the program for CIA. We have performed this service for the Central Intelligence Agency since September 25, 1946, and have completed over two thousand investigations. We cannot continue to handle any more investigations for this Agency if we are to maintain the quality and thoroughness of this and other responsibilities, which we must discharge.

I wanted to bring this to your attention in order to urge that a strong stand be taken in this matter in the event you are asked for an opinion.

SUBJECT:

REQUESTS FOR INFORMATION ON NAME CHECKS

With reference to a memorandum dated October 17, 1947, from the Executive Conference to the Director regarding the discontinuing of some name checks and the necessity of others, the following observations are made:

The work of checking names for the Central Intelligence Agency is predictated upon the National Security Act of 1947 (or Public Law No. 253 of the 80th Congress) establishing a National Security Council, a Central Intelligence Agency, and a National Security Resources Board. In particular, it is predicated upon that part of the Act reciting, "that upon the written request of the Director of Central Intelligence, the Director of the Federal Bureau of Investigation shall make available to the Director of the Central Intelligence Agency such information for correlation, evaluation, and dissemination as may be essential to the national security."

The work of checking names for the War and the Navy Departments is predicated upon the Presidential Directives and the Delimitation Agreement.

The work of checking names for the Immigration and Naturalization Service, which was approved at a meeting of the Executive Conference on August 8, 1945, was predicated on instructions from the Attorney General.

In view of the above, it is recommended that the work of checking names for the Central Intelligence Agency, Army, Navy, and the Immigration and Naturalization Service by continued.

The Conference also unanimously recommended that the State Department, by letter to Secretary Marshall which is attached, be advised that the Bureau will not be able to make any name searches for the State Department except in connection with the Loyalty Program by reason of the recent evasion and due to the large volume of work which the Bureau has at the present time. The State Department has been sending over in the past names of applicants, employees, applicants for passports and visas and other individuals in whom they are interested.

With reference to name searches for the War and Navy Departments, it was pointed out to the Conference that this was based on the Presidential Directive and the Delimitation Agreement, that such name checks would include employees of the War Department, relatives of such employees and individuals with whom the War Department or the Navy Department was contemplating having official relations. The Conference unanimously recommended that these be continued.

## Deal Between Peron, Morinigo, Over Paraguay Hits Bad Snag

By DREW PEARSON

WASHINGTON—A deal between Presidents Juan W Peron of Argentina and Highnio Morinigo of Paraguay, by which the latter country would become a virtual colony of the former, has hit a snagthat almost touched off another bloody Paraguayan

civil war.

Thanks to timely and abundant arms shipments from Peron, dictator Morinigo managed to

ments from Peron, dictator Morinigo managed to crush the latest revolt against his regime after five months of fierce fighting. On Oct. 28 the two men got together aboard Peron's yacht in the Parana river to discuss payment of Morinigo's debt for that assistance.

The Argentine president minced no words. He demanded a trade treaty which would give Argentina an airtight monopoly of Paraguayan exports and would oblige that country to import all foreign goods either from or through the Argentine government. A customs union would be gentine government. A customs union would be

established within two years,

All this has been anticipated by foreign observers as well as by Morinigo himself. But on top of this Peron called for the insertion of two secret clauses which in the words of a high-ranking diplomat, would "end Paraguayan independ-

ence for all practical purposes."

One would give Argentina absolute control of Paraguay's customs receipts, pending the effective date of the customs union, as "security" for a reconstruction loan of 200,000,000 pesos (about \$50,-000,000), The other would permit the Argentine government's Central bank to "administer and

regulate" Paraguay's monetary system.

Morinigo swallowed hard, but the terms of the alliance went down. The next item was even more of a shock. Presidential elections must be held in Paraguay next February, Peron said, and Morinigo could not be a candidate. He was however, allowed to pick his successor—with the Argentine president's approval—and it was agreed that this man would be fully informed of the trade-treaty terms.

MORINIGO chose J. Natalicio Gonzalez, a supposedly safe political hack of the governmentsupporting Colorado party. And Gonzalez might-have taken orders meekly on the Argentine alli-

ance if it hadn't been for Alfredo dos Santos, Paraguayan ambassador in Buenos Aires.

Dos Santos would have none of the Peron-Morinigo deal. And in secret talks with Gonzalez, he persuaded the candidate designate to attempt a coup: So, when the Colorado party convention met in Asuncion on Nov. 16, Gonzalez threw his canned speech praising Morinigo out the window and called for an end to "both domestic and foreign dictatorship.

More than half the delegates were in on the plot and knew what to do. For six hours they

barricaded themselves in the convention chamber and defied Morinigo to dislodge them. But army elements which were supposed to support the rebel politicians failed to move fast enough and Morinigo finally rounded up sufficient police to break down the doors.

Learning that the movement had miscarried, Ambassador dos Santos headed for the Brazilian border in his car. Sixty miles from safety he was caught, returned to the capital and jailed. Erstwhile President-to-be Gonzalez Joined him in the-lockup, along with 120-odd Colorado officials.

Apparently, Morinigo will make a fresh try at keeping his bargain with Peron, as soon as he can dig up another stooge. Meanwhile, conditions in Asuncion, which has been an armed camp ever since last March, are now authoritatively described as "all-out terrorism."

HOUSING EXPEDITER WOODS has finally bowed to the Tanforan race track near San Francisco. Although its owners were convicted, of violating housing priorities which favor veter-ains, a recent order now permits Tanforan to re-build the rest of its race track buildings. ### U. S. Intelligence Agents Have Large Unit In Latin America

By DREW PEARSON

WASHINGTON—It is now no secret that the first permanent, full-fledged intelligence agency in United States history, fashioned after British intelligence, is now functioning on an elaborate scale at United States diplomatic posts

throughout Latin America.
Although the high-powered Central Intelligence Group has agents assigned to more than a score of embassies and consulates in Europe and Asia, the real tryout of its plan of operations is currently taking place in Latin America.

This is because Latin-American governments have become accustomed to the presence of undercover operatives in our diplomatic mission. Beginning in early 1920, FBI agents were attached to United States embassles in most Latin American capitals. By the war's end, their number totaled almost 700.

A year and a half ago, CIG agents started replacing J. Edgar Hoover's men in Mexico City. Hayana, Rio de Janeiro and Montevideo. Now the new organization has taken over entirely and not one FBI operative is left in all Latin America.

The big difference between the two outfits is that FBI: men always remained technically independent, though working closely with diplomatic and milliary missions, while CIG personnel are an integral part of embassy and consular staffs. staffs.

Thus, the intelligence group has agents in every branch of the diplomatic service, from elerical departments right up to the top brackets. One ambassador to a Latin-American republic is actually a CIG man.

CHIEF qualifications, for a post in the new agency are, in the order given. (1) wartime intelligence experience, either in or out of the armed services; (2) educational background; (3) knowledge of foreign languages. A large majority of CIG agents now assigned throughout Latin America are veterans.

The group's principal tasks at present are gathering data on Communist activities and conducting a quiet "loyalty" check of United States

Watch for serious trouble in Brazil during the next couple of months. The outlawed Communists are forming "civil liberties societies" and "workers" rights clubs: with plans for big public demonstrations in the near future,

Their strategy is to try to force the Dutra Government to use troops in suppressing this agitation, which will be concentrated in the popu-lous states of Rio de Janeiro, Sao Paulo and Recife.

city would have felt the fury of the atom bomb instead of Nagasaki.

The inside story of the other hitherto unsknown atom bomb target—Kokura—has been one of the Army's closely guarded secrets ever since that fateful day—Aug: 9, 1945. On that day Maj. Charles Sweeney took off from the island of Tinlan with instructions to bomb Kokura, which had been reported by a United States observation plane as clear for bombing.

As he was taxling down the runway, Sweeney detected trouble with a fuel pump. This meant he could not use 800 spare gallons of gasoline, which would cut him short, and leave him illticume to dally over Japan. But he took off anyhow.

LIKE Kokura, Nagasaki was blotted out by clouds. Sweeney made a couple of rune and finally located a hole in the haze. It was not wide enough to permit clear vision, but Sweeney was too low on gas to carry the bomb back. Be-sides, he had read intelligence reports that the

So, contrary to his instructions not to drop the bomb unless he had a clear view of the target. Sweeney ordered, the bomb dropped by radar with only a small opening in the clouds for visual observation.

The rest is largely a matter of history. Nagasaki's, business, district, was wiped out 18,000 buildings leveled to the ground and another 32,000 severely damaged. The explosion killed 26,000 people and wounded 40,000. Ten to 20 more died daily afterward of radioactivity.
